

FREE VACCINES

FOR CHILDREN 18 AND UNDER

WHO DO NOT HAVE INSURANCE OR HAVE MEDICAL ASSISTANCE

Vaccination is one of the best ways to protect your child's health.

Many contagious diseases used to be very common. Most are now avoidable thanks to safe, effective vaccines. Making sure all children and adults are vaccinated can stop the spread of disease. **If you have any questions regarding vaccinating your child, please contact us at 717-544-3807.**

Note: A vaccine for the coronavirus (COVID-19) is not available at these clinics.
